

"For years I have been looking for a company to develop high quality dental content to display on my reception room TV. Finally I have found the most amazing product ever. My patients now have the opportunity to watch the news, weather and learn about the benefits of modern dentistry all at the same time.

Every office should take advantage of this offer!!!!!"

"During thirty-six years of practicing I've attempted a variety of external marketing programs, only to be disappointed at the less than stellar results. So concluding that internal marketing would be more effective was easy but focusing my staff on their role became an ongoing challenge. A colleague recommended PDNtv as a solution. PDNtv was THE solution, targeted, high production value, low cost, and intensely focused on those services that I can provide for my patients. Perfect. Since start-up my production and collections have increased 15%."

**Dr. Mark K., DDS, Torrance, CA**
